1. The drawings were received on 7/2/07. These drawings are accepted.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1, 4, 6-9, 11-14, 17 and 19 are rejected under 35 U.S.C. 103(a) as being unpatentable over Gafney '157.

Gafney teaches a 3 D cover made from 2 D components seamed together as shown at 40, for example. Note that the foam members are flat and shaped into a 3 D shape when seamed together as claimed. Note also the flexible cover material 24 seamed to the structural material. The foam is covered on the inside and outside as clearly shown in Figure 5.

3. Claim 5 is rejected under 35 U.S.C. 103(a) as being unpatentable over the reference as applied to claim 4 above, and further in view of Ruddell et al GB '239.

To have formed the head cover in the shape of a juice bottle in the manner of Ruddell et al would have been obvious.

4. Claims 10 and 18 are rejected under 35 U.S.C. 103(a) as being unpatentable over the references as applied to claim 1 and 14 above, and further in view of Jantzen '319.

To have provided the cover with a flat plastic sheeting to shape the head cover would have been obvious in view of Jantzen teaching the use of such light weight shaping material.

5. Claim 20 is rejected under 35 U.S.C. 103(a) as being unpatentable over the reference as applied to claim 1 above, and further in view of JP 486.

Art Unit: 3781

To have merely double seamed the cover for stronger seams would have been obvious in view of JP '486.

6. Applicant's arguments with respect to claims 1, 14 and 20 have been considered but are moot in view of the new ground(s) of rejection.

The objection to the drawings and rejection under 35 USC 112 are withdrawn in view of the amendment received 7/2/07. Claims 2, 3, 15 and 16 have been canceled.

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The patents show other covers.

8. The following are suggested formats for either a Certificate of Mailing or Certificate of Transmission under 37 CFR 1.8(a).
